

We Believe In Appomattox

We believe in a Progressive Appomattox.

We believe that the Appomattox of ten years from now will be just as much improved physically over the town of today as we are now advanced over ten years ago.

There will be new stores, new homes, new PAYROLLS.

WHERE THERE IS ENTERPRISE, THERE IS GROWTH.

We must have enterprising and far sighted leaders to build our community.

There are some people here, who still speak of Appomattox as "The Village." Village nothing. We think it is one of the finest municipalities in Piedmont Virginia. What do YOU think?

By another month, a splendid tobacco crop will be ready for the market. The auctioneer. Another year of fair prices is expected. That means more money for farmers. We have CASH MONEY to spend. And we must have enterprising and far sighted leaders to build our community.

realized that the minister's reply to his letter couldn't possibly be read by the president, anyway, and that it was poor instead of clever points to mislead the good clergy men into thinking that the administration cared what they thought about the New Deal, enough to do what they might advise.

So much for the new discarded letter to the clergy. The lucky part is, however, that the way in Africa and the world series came along to divert attention from other things so that the whole matter was soon forgotten. It now appears that the famous letter to the clergy was a mistake, but not a costly one.

LET'S HAVE MORE FOX HUNTERS

Appomattox has been honored for the past four years to have the pleasure of playing host to the hunt of the Piedmont Fox Hunters Association.

As best we know how, we have sought to make our guests welcome. We hope they'll keep coming back. Every year "Old Red Tom" is too good to give them sports.

We have a suggestion to make to the membership of the association, to greatly enlarged.

Fox hunting is something of a major sport in this section. We can boast an amazing number of better than average hunters. Scores of our local citizens enjoy the sport.

We, the members of the association, are of the opinion that the attendance could be made to justify two hunts each day, with many more hunters in action.

With a little more effort the number of hunters here will be increased. The association hopes to be able to handle the major social event of the season in this section where fox hunting is a "natural."

Genuine religion is featured by a lack of display.

Reports from all over the nation tell of better business conditions.

Beating a man is harder than keeping him beaten. Italy will find that out in Ethiopia.

The problem of the farmer is to maintain the gains made under the Second, the better thinking folks New Deal.

On first appraisal that looked as if it were a political scoop, it was likely to be a political scoop, for the ministers would be flattered in to thinking that Roosevelt really was a fine man (to gain a man's support flatter him) and would line up for the administration the polls in 1936. And furthermore, who might have been in a better position to offer sounder advice than the clergy? It looked good, like another "red" of the president's master stroke.

"Unfortunately, however the idea didn't pan out, so well."

First, it was found out that it wasn't Roosevelt's letter at all, but an almost exact copy of a letter that Governor Phil LaFollette, of Wisconsin, had gotten out to the ministers of that state. Roosevelt, then, hadn't been sincere. He had cleverly stung by the governor of a Republican state.

That exploited the notion that the religious leaders for sound counsel, maintain the gains made under the Second, the better thinking folks New Deal.
